## SUMMARY

Dedicated Full-Stack Developer with over 1+ years of experience in developing dynamic and responsive web applications. Proficient in leveraging Angular, .NET, and SQL Server to streamline development processes and enhance user experience. Adept at problem-solving and delivering high-quality solutions in fast-paced environments.

---

## EXPERIENCE

### .NET Developer

GALAXY TECH SOLUTIONS, Hyderabad, Telangana  
March 2024 - Present

In my role at Galaxy Tech Solutions, I collaborated with cross-functional teams to design, develop, and deploy features according to project requirements. My responsibilities included:

- Utilizing .NET for back-end development, creating robust and scalable server-side applications.
- Implementing SQL Server for efficient database management and ensuring seamless data storage and retrieval.
- Leveraging HTML, CSS, and Bootstrap for front-end development to create responsive and visually appealing user interfaces.
- Conducting code reviews to maintain high code quality through best practices.
- Focusing on refactoring, profiling, and debugging to optimize overall application performance.
- Managing and tracking code changes using Git.

### Full-Stack Developer

NOVELSKI IT Solutions Private Limited, Hyderabad, Telangana  
January 2023 - February 2024

- Collaborated with cross-functional teams to develop and maintain web applications using ASP.NET Web API and Angular.
  - Designed and implemented responsive user interfaces with a focus on user experience and accessibility.
  - Utilized SQL Server and MySQL to develop and optimize database structures and queries for efficient data retrieval.
  - Developed and maintained mobile applications using the Ionic framework for Android platforms.
  - Integrated Figma and Canvas designs into web and mobile applications, ensuring a seamless user interface.
  - Participated in code reviews, ensuring code quality and adherence to best practices.
- 

## PROJECTS

**Way2Landmark:** Led frontend development for a real estate platform with a focus on property listings using HTML5, CSS3 and Bootstrap, React.js. Developed dashboards and API integrations for user and admin management using .NET WebAPI and SQL Server. [Link](#)

**Haazri:** Designed and developed a comprehensive HRM system frontend using HTML5, CSS3, Bootstrap, React.js. Created and integrated detailed dashboards for admin and employee management, facilitating efficient HR operations. Integrated

backend APIs for functionalities such as attendance tracking, payroll management, implemented secure admin and user authentication with JWT, and employee self-service using .NET WebAPI and SQL Server. [Link](#)

**Sams Matrimony:** Developed a matrimonial platform using HTML5, CSS3, Bootstrap, React.js. Designed UI components, and implemented secure user authentication with JWT. Conducted testing to ensure application reliability. Also developed a mobile app version using React Native. For backend services, utilized SQL Server and .NET WebAPI. [Link](#)

**Bingenfeast:** Developed a private theatre booking platform for special occasions like birthdays and anniversaries using HTML5, CSS3, Bootstrap, React.js. Created interactive UI components, optimized user flows, and integrated backend APIs for real-time booking management. Developed and integrated dashboards for user and admin management using .NET WebAPI and SQL Server. [Link](#)

**3D Plans:** Developed a platform for construction project queries and client interactions using HTML5, CSS3, Bootstrap, Angular. Designed UI components, integrated RESTful APIs, and implemented secure user authentication with JWT. Facilitated real-time communication and project management features using .NET WebAPI and SQL Server.

**Novelski:** Novelski builds dynamic web experiences with Angular, HTML5, CSS3, and Bootstrap. We specialize in intuitive UI design and seamless user interactions, ensuring optimal performance and engagement. [Link](#)
